## Clubhouse and Facilities Information

### Deck Update

The new deck has been built, but due to supply chain issues, the pieces needed to complete the railing have not yet arrived. Once the railing is properly installed members will be able to enjoy the beautiful new deck with the amazing view. We will let all members know when the deck is ready.

### Community Water Fountain

We are working with the community to have a public water fountain installed on the south side of the clubhouse for people and dogs using the open park area. MPTC will not be responsible for any of the cost associated with installation or the increased cost of water consumption. We think this is a great way to support the community!

### Gate proposed for the North Fence

We have received request to install a gate on the north side of the courts to allow easier access for those times someone hits the ball so hard that it blast right through the netting and the fence (also for the rare times the ball seems to fly OVER the fence as well). The board of directors is currently looking into this request and will explore the feasibility and costs before making any final decisions. We will provide an update when we have more information.

## Shoe Tags

If you haven't picked up your 2022 shoe tags yet, please stop by the clubhouse and ask a custodian to provide you with one.

They help us keep track of our membership and can be a great keepsake for a record of your years at MPTC. Check out Doug Begg's huge collection of shoe tags from over the years.

Go to the [Mount Pleasant Tennis Club Website](#) for more information and details

## Social Events

### Updated Alcohol Policy for MPTC Sanctioned Social Events

We wanted to inform all members of a recently board approved policy regarding alcohol consumption at social event. The consumption of personal alcohol is not permitted at club organized social events. Alcohol can be purchased at the club during these special events. This policy help us meet the expectations of liquor licence obligations and reduces potential liability issues for MPTC. Thanks for understanding.
